

To whom it may concern-

Over the past years OpDecision has been extremely successful in helping California Metals negotiate the most favorable terms with our carriers of choice. After putting forth our best efforts in procuring the most advantageous deal for our company, OPD has been able to go above and beyond. Their efforts has garnered Free Equipment, Free Months of Service, Monthly Discounts that were associated with our industry that we were not aware of, and non-published rates to drive our costs down. After using OpDecision on our second contract negotiation in the past couple of years, their continued success has led to my desire to write this letter and share my story with other businesses that are looking to drive down their costs. With the economy currently forcing business to cut costs anywhere they can, we look forward to sharing the tremendous value and experience we have enjoyed with OpDecision's service with all of our vendors, clients, and suppliers.

Please feel free to contact me personally to further discuss this matter.
