OpDecision Recommendation

As the CEO of a nonprofit organization, I am constantly looking for ways to decrease costs. When our cell phone contract expired, we explored cell phone providers but with little time and experience, we needed an expert to help us. We were fortunate to have OpDecision help us identify specialty pricing that helped us dramatically cut our costs; negotiate one-time credits and hardware discounts; optimize our bills to ensure that all pricing was implemented properly; and monitor our bills on a monthly basis to provide additional recommendations for increased savings. OpDecision was also kind enough to donate their time and services as their way to contribute and help a nonprofit organization. I definitely recommend OpDecision for any organization that wants to reduce its cellular costs and increase their service.

Sincerely,

Harry Marmorstein  
Chief Executive Officer
